What NOT to do when buying a home

There are plenty of things you need to do when buying a home. These are the things you should absolutely NOT do.

- [ ] Change jobs/careers/companies
- [ ] Veto a potential home over an easily fixable item
- [ ] Make a large purchase while under contract such as a new car or expensive furniture
- [ ] Dilly-dally on decision making or getting important documents together
- [ ] Freak out over small items in an inspection report
- [ ] Back out for no reason
- [ ] Look for a home when you aren't pre-approved yet
- [ ] Use a real estate agent not named Andrew Hasdal :)
