# Why I left Greece

and I am not returning

- [ ] Because sexism and misogyny is the norm
- [ ] Because workplace bullying is common and accepted
- [ ] They still have laws against blasphemy
- [ ] Children are taught the Greek Orthodox Religion at school
- [ ] The 'official' religion thinks I am not exactly human
- [ ] Because the 'official' religion trumps over human rights on a regular basis undisputed
- [ ] Because I needed to make an appointment at the embassy and when I tried to book on Thursday the 20th of October the first available date was the 20th of January
- [ ] Because ambition is laughted at and arrogance is considered confidense
- [ ] Because some people are 'above the law' and therefore there is no justice for anyone
- [ ] Because without justice there is no real freedom
- [ ] Because trying to better yourself through education and culture is considered a waste of time
- [ ] Because banks treat me as a criminal rather than a customer and behave as if my savings are theirs and don't allow free access to it (for my 'own good' and for 'security reasons')
- [ ] Because Greek goverment see this as normal and sides with the banks to make sure I am powerless against them.
